SERVICE EXCLUSIONS

Mould

- We do our best to remove mould from all areas. However, mould can be imbedded into silicon, grout and other areas. These areas will require a specialist to restore back to a normal state.

Damp spots

- Damp spots can happen anywhere in the house, often the 'dry wall' plaster can be affected. We will do our best to remove any mould and marks from damp spots. However, we cannot completely make these spots disappear. These marks can return quickly due to excess moisture.

Complete wall clean

- We spot clean the walls for insect marks and a few hand or food stains. But, where most part of the walls are stained, a complete wall clean will be required and this attracts an extra charge. This will be agreed on during booking.

Discoloration

- We will do our best to clean all items with our commercial experience. However, discoloration happens with normal wear and tear of the property. For instance, toilets bowls and plastics cover/seats can change colour (in most cases into a yellow colour) over time and they cannot be returned to their original colour without specialist intervention.

Tile and natural rock stains

- We do our best to remove stains however due to the composition of the tiles or benchtops (some being extremely porous) it is not possible to remove stains without specialist intervention.

Ceilings

- We do not clean ceilings.

Dangerous areas

- Any areas considered by our cleaner dangerous for them to operate, this includes broken cracked Power points/switches, rubbish, bio waste or any other hazard than can be deemed dangerous.

Heights

- Our cleaners do not clean at heights. Any cleaning that requires a ladder will not be performed. For instance, external cleaning of windows in a unit complex on the second floor.

Garage walls

- We do not clean Garage walls or floors

Specialist services

- Areas that require special cleaning equipment, specialist chemicals or a trained technician. Examples are painters (walls extremely bad) or plasterer (holes in walls).
